Dow jones industrial average historical data spreadsheet

CCO/geralt/Pixabay It's safe to say that every investor knows about, or at the very least has heard of, the Dow Jones U.S. Index. As long as it continues to contain stocks that reflect the major industrial areas of the U.S. economy during any given period, according to the Investopedia experts, the 30-stock index will likely remain the gold standard of financial indicators. Additionally, it took 16 years for stocks to come back after events in the late 1960s and early 1970s, including the Vietnam war, the oil shortage and President Richard Nixon's resignation.How the Dow Plays Over TimeGeneral thinking about Dow and what charts indicate is that while fearsome global events have some short-term effect, bigger-picture thinking wins out over time. It is considered a total market index and represents the top 95 percent of the U.S. stock market, based on market capitalization.It is a very broad index and so includes sub-indexes that track major market segments, sorted by stock size, sector and so on.What the Dow IndicatesOne of the sub-indexes is the Dow Jones Industrial Average (DJIA). What this means is that investors should not shut down in times of uncertainty or chaos but stay flexible and be prepared to change out stocks and think innovatively.Since it started in 1896, the Dow has risen more than 50,000% over its lifetime. S&P Dow Jones Indices LLC, Dow Jones Industrial Average (DJIA), retrieved from FRED, Federal Reserve Bank of St. Louis, January 21, 2022. ETFs (Exchange-traded funds) are packages of securities bought and sold via brokerage firms on the stock exchange. All rights reserved. MarketWatch notes that it took 25 years for the market to recover from the stock market crash in 1929. The market typically closes at 4 PM ET, except for holidays when it sometimes closes early.The Dow Jones Industrial Average provides a view of the US stock market and economy. More contact details are available here, including phone numbers for all regional offices. They have historically included stocks such as Boeing, McDonald's, Apple, Walmart, Disney and Home Depot.Within those stocks, investors frequently want to know about best ETFs for them. MORE FROM LIFE123.COM Something went wrong. If they are chosen well, they can be an outstanding vehicle by which individual investors can meet their personal financial goals.Four leading ETFs at the end of 2017, according to Investopedia, are as follows: the SPDR Dow Jones Industrial Average ETF, the Ultra Dow30, the ProShares UltraPro Dow30 and the ELEMENTS Dogs of the Dow.Historical Lessons Play OutBecause the DGIA is so influential in investing, its history is carefully tracked and can be instructive for investors and others watching the market in every country. The general thinking is that it does reflect the U.S. economy and that it quickly reflects trends about the general market and some industries specifically. Wait a moment and try again.
