Steffanie Kantosky 3.0 out of 5 stars The title lists one size of staples and the description lists a different size. So don't buy the RECOMMENDED "other things" that others are buying that include staples because they are the WRONG size. However I know this stapler is great and will be able to actually use it next year during homecoming. Had to borrow someone else's this year. Of all the staplers that I have had, this one is the best because It is so easy to handle and use. I especially like the long reach nose which makes a lot of my projects so much easier to do. I already had one of these staplers for years and still have it. I was constantly taking it back and forth from my craft area to my desk, so thats why I ordered this second one. Love them both and no way that I would give them up to anyone. Highly recommend this product. You would never want to go back to the traditional desk top stapler again.

Essential for gift baskets, tacking a hem, ribbon, tablecloth. Certainly not the product it used to be. They're great, they hold up well, but eventually, they do fail. It takes a while, one probably holds up for a year's worth of constant stapling, which is pretty good. I have one and my office kept using mine and not returning it so you know what she got for her birthday present a Bostitch Stapler and Staples. The smaller staples make a much better grasping of copy sets. Highly recommended.
